

SOFI BONDE

Get You

Verse 1

My heart got thrown into jail
And you're still out chasing tail
You got what you wanted
Caught me dishonest
And took the red-light exit out
Sometimes you throw me a bone
When you're feeling alone
And you leave me the crumbs
Smoke in my lungs
That's what I'm living off of now

Chorus

I'll never get you I know I know
I'll never have you on my own
I'll never get you I know I won't
But I'm holding on
I'm holding on
To Nothing

Verse 2

The officer of hearts
You're getting good playing dart
Yea you aim for the middle
That's what you came for
I think you're missing out though
Cause you will never win

Unless you let someone in
Show what you're made of
Face what you're scared of
Too busy keeping your walls up

Chorus

I'll never get you I know I know
I'll never have you on my own
I'll never get you I know I won't
But I'm holding on, I'm holding on
I'll never get you I know I know
I'll never have you on my own
I'll never get you I know I won't
But I'm holding on, I'm holding on

Bridge

When it's about to die
You make sure we stay alive
So I can't let you go
It's kind of selfish
When you're about to leave
I'll give you what you need
Yes, I want you to stay
I'm selfish
