## Streetlights

### Verse 1

You say you need to trust me  
Then that is what you should give  
me

I know I've got my issues  
But god knows you mirror mine too  
Why can't we just move on?

### Pre 1

Before all hope is gone

### Chorus

We're passing by streetlights  
Aware of the red lights  
Yeah you see them too  
Am I just like you?  
We pick up the speed and hope  
To find what we need but don't  
A desert of sand  
We'll never understand

### Verse 2

Living in constant fear of  
What I'm willing to do love  
I'm tied up - knots in my chest and  
Thinking if this is real love then  
We should be happy

**Pre 2**

But we don't want to know

**Chorus...**

We're passing by streetlights

Aware of the red lights

Yeah you see them too

Am I just like you?

We pick up the speed and hope

To find what we need but don't

A desert of sand

We'll never understand

**Bridge**

You me

Me you

You me you

You and me

Me and you

You me

Me you

You me you

You and me

Me and you

**Chorus...**
